

FORMULA ONE

1987-1993 gallery

I felt I was missing something in my Formula One collection, so I decided to try and collect Formula One cars from the period 1987 to 1993.

Scalextric, SCX and Matchbox did some of these cars back in the early 90s, I've looked around at eBay and found some of these cars. Some were very cheap and some cost the same as new slotcars of today.

The 1987-1993 period had drivers like Prost, Senna, Berger, Mansell, Alboreto, Arnoux and many more, so this is just my small effort to honour these magnificent drivers - and wouldn't it be fun if it could turn out to be a Formula One Classic series once these cars have been tuned, some new decals and a little paint perhaps?
